

LED VERSION

Torpedo Light™

EXTREMELY
TOUGH

Our 'Torpedo Light' has been designed to be extremely tough and maintainable to provide the end user with many years of service.

This unit operates on 9 to 30 Vdc and features the latest very high output LED technology, providing excellent light output, low current draw and very long life.

The light comes with various options as displayed in the section below.

Specifications

Housing	Glass reinforced injection molded nylon as standard or cast and machined high grade aluminium. Powercoated. Yellow (other colours available on request)
Lens	High impact 6mm thick poly carbonate
